MAYOR'S INAUGURAL ADDRESS

Gentlemen of the City Council:—

It is again my privilege and pleasure to extend to you all, my hearty congratulations on your election or re-election, as the case may be, as Aldermen for the year 1932.

The citizens have extended to me a renewal of their confidence by acclaiming me their chief magistrate for a second term.

This honor I deeply prize and appreciate as an expression of the confidence of the people as a whole. I take it that they are mindful of the harmonious co-operation of the entire council during the year 1931 and of the mutual benefits accruing therefrom, to all concerned.

The co-operation I have received from every member of last year's council and all the City officials has made for progress and efficiency in the civic administration and last, but not least has made the office of Mayor a distinct pleasure to me.

Let me take this opportunity of pledging to and requesting from this year's Council and the City Officials that co-operation, so essential to good civic government.

We have passed through a very trying year, but our record under the circumstances was a very creditable one indeed.

Permit me to review some of our accomplishments of 1931 and to direct your attention to some of the principal items, which in my opinion should have your careful consideration in 1932.

Retrenchment in all our expenditures, consistent of course with wholesome progress, is essential in order that no overdrafts be incurred or any increase be made in the tax rate.

I would like to take this opportunity of thanking the Aldermen of 1931, for their individual efforts in keeping within their committee estimates as provided in the budget, resulting in a surplus rather than a deficit at the end of our fiscal year.

These departmental surpluses together with other profitable deals, made possible through the advice and counsel of the City Officials, have resulted in a fund which will be available for and applicable towards a reduction in the general tax rate, without which there would have been an increase in 1932.

By reason of the votes of the ratepayers in 1931, a considerable sum of money will have to be raised for the City's share of Technical Education, assistance to Queen's University and industrial development.

Provision for the city's share of unemployment relief will also have to be met.

The general feeling prevails that an increase in the tax rate is inevitable, but with extreme care in financing we may be able to balance our budget without an increase, this we must strive to accomplish.

I wish to congratulate the Chiefs and members of the Fire and Police departments for their vigil in the protection of the lives and property of the citizens, the 1931 record of both departments has been of a very high order.

Our Board of Health, Old Age Pensions, Library and House of Refuge Boards, are deserving of our thanks for the discharge of their duties in 1931.

Lake Ontario Park and Tourist Camp.

These have proved profitable and self-supporting civic ventures and are valuable assets for the citizens of Kingston and the Tourist in our midst. I would strongly advise that these civicly owned breathing spaces and amusement centres be developed for the benefit of all the people.

Cataraqui Bay Terminal.

This development, in its present state nets the Corporation through taxes about $4,400.00 annually, after all carrying charges are met including the Golf Club purchase.

Every effort must be made to complete Elevator No. 2, temporarily suspended due to the financial stress of the times and to promote the construction of the proposed Dry Dock for the accommodation of the large lake freighters.

King St. Breakwater.

Completion of the dock line Eastward from the Queen's heating plant should be completed during the winter and spring under the unemployment relief programme.

Industrial Development.

We were fortunate, with the co-operation of the Chamber of Commerce, in having two first-class industries established in the East end during 1931, let us exert every effort to establish more industries of a self-supporting character in 1932, securing of industries being most essential to a healthy growth of our City.

Town Planning.

I would be grateful to any enterprising alderman who would assume the Chairmanship of a town planing committee and endeavor to bring along this much needed improvement so apparent to all.

Transportation and Snow Handling.

We are pleased to note decided improvements along both these lines, but I would suggest continued investigations looking towards the betterment of both services.

International Bridge.

I am glad to note that the question of an international bridge at or near Kingston is taking on concrete form, and I trust Council will consider some financial assistance to the general committee making the investigations. Those of us who may be spared to see a vehicular bridge connecting the two countries crossing over Howe, Wolfe and Carleton islands will in my opinion experience one of the greatest factors contributing to the development of Kingston and the entire district surrounding us.

Unemployment Relief.

Due to no fault of our own, we are confronted with considerable unemployment again this year. We are grateful for the financial assistance from the Provincial and Federal Governments and we must meet the situation in such a manner that no hardships will be suffered by our less fortunate citizens. Our construction programme will provide work for many heads of families, in the hope that the spring will see us safely through a very trying transition period.

We all regret that due to the acute financial condition of the C. N. Railways, no definite pronouncement is forthcoming from the Railway officials regarding the new station and main line Division.

My concluding hope is that your attention to your several duties during 1932, will contribute to a happy and prosperous year for our fair city.

Let our slogan ever be "Co-operation for a bigger and better Kingston".

Ald. Peters presented Report No. 29(b) from the Committee on Finance and Accounts containing the Budget for 1932 as follows:—

Civic Budget, 1932

Kingston, Ont., March 17, 1932.

The Committee on Finance and Accounts, in submitting the estimates for the year 1932, begs leave to report as follows:—

The Bonded Debt of the City to 31st December, 1931, is $3,605,532.13, made up as follows:—

Water Works		$ 17,000.00
Light Works		439,850.00
SCHOOLS:—		
Public	$ 351,330.95	
High	56,150.00	
Technical	366,803.00	
		774,283.95
LOCAL IMPROVEMENTS:—		
Corporation's Portion	$ 745,918.01	
Owners' Portion	665,380.17	
		1,411,298.18
General Purposes		963,100.00
		$ 3,605,532.13

The amount of the Sinking Fund as on 31 Dec., 1931, is $1,244,613.74 and of this amount $1,177,904.10 is invested in Government and Municipal Debentures and $66,709.64 is on special deposit in the Bank.

The amount to be levied for the Sinking Fund this year is $172,689.37, the parties specially benefited paying $58,306.24 and the City generally paying $114,383.13.

The Board of Education requires from the City this year for Technical School purposes, the sum of $50,944.00 or 2.62 mills on the dollar.

By economies effected in some of the Departments, the Board of Education was able to fix its estimates at a net increase of $27,187.00, or 1.40 mills.

With the additional Revenue from increased Assessment and the Surplus from last year, your Committee has been able to reduce the rate of taxation one-half mill and to provide for the increase required by the Board of Education, and also to furnish the various spending Committees about the same appropriations as were allowed last year.

This very gratifying situation is the result of careful financing last year, and the earnest effort of the various spending Committees to keep their expenditures within their appropriations and it is hoped that this year's Council will conduct its business in the same satisfactory manner.

A large share of the credit for this favorable report is due to the excellent internal administration carried on by the City Officials, and we desire to express our appreciation of their very efficient services.

Your Committee recommends that a rate of 26 mills for General purposes and 15 mills for Educational purposes, making in all 41 mills on the dollar, be placed on this year's ordinary assessment, and also that a rate of one-half mill on the dollar for the collection and disposal of Garbage, be imposed on the assessment liable therefore.

Respectfully submitted,

Whereas there is a great need for economy in civic expenditures. And Whereas the cost of living has declined some 20% since 1929.

And Whereas business conditions have substantially reduced the income of practically all taxpayers.

And whereas the Finance Committee of the Board of Education has assured the Finance Committee of the City Council that if the City Council reduced salaries of its permanent officials and employees, the Board of Education would take similar action in respect of the salaries of its officials and teaching staff. Be it therefore resolved that:—

1. The salaries of the permanent, full-time civic officials and employees, including chief of police, be reduced by 5%.

2. This reduction is not to effect the mayor's allowance, nor the salaries of members of the Fire Dept., nor the Policemen.

3. That the Board of Education be forwarded a copy of this resolution and that it be requested to amend its estimates to allow for a 5% reduction in salaries.

4. That the Public Utilities Commission be forwarded a copy of this resolution with the request that it take similar action so that reduction in salaries would be as uniform as possible, and that the saving effected thereby be passed on to the citizens either in the form of extra lighting required by the city or in reduced rates to the consumer.

5. That the adoption of the Budget as presented be held over until the Board of Education has considered salary reduction.

Fire and Light.

Ald. Chown presented report No. 31 from the Committee on Fire and Light as follows:—

1. That the following report re lights be approved, and that the Public Utilities be asked to erect them at once:—
To the Members of Committee on Fire and Light.

Gentlemen:—

In company with Ald. D. M. Chown, Chairman, Ald. Sparks and Ald. Hughson an inspection was made of locations where street lights have been authorized by City Council and not yet erected, and herewith submit their suggestions regarding same.

July 19th, 1926, and again on June 2nd, 1930, arc lamp at Earl and Napier Sts.

Oct. 15th, 1928, lighting of Frontenac Park. Council authorized the changing of a tungsten to an arc lamp on Alma St. The erection of an arc lamp in centre of Park, at stone pile, and erection of arc lamp at South-east corner of Park, and on March 21st, 1932, by motion of Ald. Andre and Morton a light for the Park. (It is suggested that an arc lamp be erected at the stone pile.)

Oct. 29th, 1928, light on Nelson St. between Princess and York near St. Luke's Church (large tungsten lamp suggested).

Sept. 25th, 1929, Earl and Toronto Sts. (large tungsten lamp suggested).

June 25th, 1929, Victoria and Durham Sts. (large tungsten lamp suggested).

Nov. 29th, 1930, Union St. between Centre and Ellerbeck Sts. (Arc lamp).

Feb. 23rd, 1931, King St. west near Ice House, west of Beverley St. (Arc lamp).

Feb. 23rd, 1931, Lower University Ave. and Stuart St. (large tungsten lamp suggested for 2nd pole east of Stuart St. on University Ave.)

May 18th, 1931, laneway running from Barrie to Clergy Sts. between Johnson and William Sts. (large tungsten lamp suggested).

June 2nd, 1931, William St. between Barrie and Division Sts. (large tungsten).

March 21st, 1932, North Macdonnell and South Bartlett Sts. (Suggest that the small tungsten near this corner be moved North to near or at Concession St. and that an arc lamp be erected at Macdonell and Bartlett Sts.)

All the above lights have been authorized by Council on dates noted and have not yet been erected.

It is also recommended for the better lighting of the intersection of Upper and Lower York St. and Alfred St. that the two trees in the Fair Grounds at both sides of building used by the Fire Department be removed, and that the arc lamp now on the East side of Alfred St. opposite Upper York St. be changed over to the West side and placed so as to show light on both sections of York and also on Alfred St. and also that the light at Stanley and Alfred Sts. be changed to one of larger power. York and Alfred St. intersection is a dangerous one on account of busses turning around this corner.

For the better lighting of the intersection of Division, Stephen and Concession Sts. a light was authorized to be placed on the first pole on Stephen St. East of Division St. (Large tungsten suggested.)

Request has also been asked for better lighting of the intersections at Alice, and Edgehill on Beverley St. (Suggested that the arc lamp now at Beverley and Edgehill be moved South one or two poles on Beverley St. and an additional arc lamp erected on Alice St. East of Beverley St.

Inspection was also made of lighting on Dundas St. and as it is understood that a request will be made for lights on this street it is suggested that an arc lamp be erected at Dundas and Napier Sts.

Ald. Sparks also asked for consideration for a light on Lower Alfred St. near bend North of Alice St.

An inspection was also made of Ontario St. between Johnson and Clarence Sts. where better lighting has been asked for by the Robertson Grocery Co. There are lights at Johnson and at Clarence Sts. and also a light on the West side almost opposite the doors of the Grocery Co. No action suggested on this request. (The Company themselves keep a tungsten lamp burning in a laneway North of their warehouse, running from Ontario St. to water front, and as this lane is used by the public a larger light might be provided by City Council.)

2. That in accordance with Section 2, Report No. 12, 1916, all matters pertaining to street lighting come under the jurisdiction of the Fire and Light Committee.

3. That tenders be called for 500 feet of hose.

4. That a fire alarm signal box be purchased from the Northern Electric Co. at an estimated cost of $125.00, to be located at the Corner of Elm and Chatham Sts.

5. That four copper, 5 gallon hand water pumps be purchased at a cost of $20 each to replace four galvanized iron pump tanks.

6. That the tower and front wall of Ontario St. Station be re-pointed under the jurisdiction of the City Engineer and by day labor.

Moved by Ald. Hopkins, seconded by Ald. Andre, (3) that several years ago the City Council conceived the idea that Major W. A. Stroud in charge of the Ontario Government Employment Bureau here, and on account of the position he held dealing with employment and unemployment questions, with a special training in this work, would be able to give valuable assistance to the City in handling our unemployment problems.

That permission was given by the Government to allow him to assist and he kindly consented to do so. He has given the Corporation his services without compensation. His work has been of the most satisfactory character, and he has given an unequaled service, which resulted in handling the unemployment question efficiently and honestly, with a saving to the Municipality and the Government of many thousands of dollars per annum. The City Council conveys to Major Stroud their sincere thanks and appreciation for the time he has given to the work and for his valuable co-operation.

The City Council hereby places on record their appreciation of the favor conferred by the Department in allowing Major Stroud to assist us in dealing with and administering all matters in connection with the unemployed, and hereby renews their application for its continuance, knowing that the work is being performed in a more satisfactory manner and at much less cost to the Municipality and the Government than it can be done in any other way.

That a copy of this resolution be sent to the Hon. Joseph Dunsmore Monteith, Minister of Public Works and Labor, Toronto.—Carried.
